

October 24: A day of Action in the Burton Street Community

On October 24th a group of 70 volunteers, professionals, and AmeriCorps members will gather together to weatherize 5 homes in the Burton Street Community. This day of service is inspired by the international 350 day of action, whose aim is to reduce the amount of CO₂ in the atmosphere through education and outreach projects. Through our local Asheville weatherization action, we hope to increase energy efficiency in our communities.

To Apply for FREE Weatherization Services, call Asheville Green Opportunities: 828-398-4168. You must qualify to receive services.

To learn more about volunteering for this project and others, call the WNC Green Building Council 828-254-1995
